

In addition to the 16 German language issues of CHEManager, we will be publishing English-language special focus issues under the brand of CHEManager International.

These on-topic issues will provide a comprehensive overview on each thematic priority. An extensive pan-European plus overseas circulation will ensure the presence in the world's largest and most vibrant sales markets for the chemical & life science industries. **43,000 copies** will be distributed together with the CHEManager newspaper in the **German language markets**, another **10,000 copies** will be distributed directly to decision makers **across Europe** and beyond and **2,000 copies** will be circulated at leading trade shows and conferences. Regular e-newsletters, daily updated industry news on **CHEManager.com** plus the digital issues guarantee a **continuous and highly visible cross-media presence**.
